

Midwestern Highway

© 1972 Billy Panda

From the **Left In The Wake** CD

Midwestern highway taking me for awhile
If I had my way, I would have gone in style
And I can just see you stretching out in the distance
Billboard signs keep flying by me much too fast to read
My way's highway's speed supply is more than I need

Midwestern highway, I don't know what to do
I don't know my way, I'm puttin' my trust in you
And I can just see you in the valley below me
Rolling down to meet the river as you pull away
Reckless road, won't you deliver something my way
Something my way

Midwestern highway, I got a ways to go
Till I find my way, maybe I'll never know
But I can still see you stretching out in the distance
Rolling up for miles of nowhere, do you really care
I could find my answer somewhere,

Maybe it's there
Maybe, maybe it's there....
